SOFTWARE DEVELOPMENT ENGINEER

Finvent is the exclusive and sole distributor of leading SS&C Advent Software products & services provider since 2001, in over 15 countries in Europe and Africa.

Finvent provides sales and marketing, consulting, project management, training and support as well as custom engineering services, to all Advent regional clients.

Via our deep understanding of both the Advent solutions and of the buy-side investment sector, we also develop and distribute our own award-winning solutions as well as many custom reports and utilities.

Due to our growth we currently seek a highly motivated, experienced and knowledgeable **Software Development Engineer** for our solutions. The engineer will be based in Athens.

Our financial software products span the functions of: Risk Management, Portfolio Management, Client & Management Reporting, Client Relationship Management, and Trading & Order Management, – targeting investment management organizations such as wealth managers, private banks, asset managers, family office and funds of various types including pension and hedge funds..

Responsibilities

- Design & apply to new and existing applications (web or windows based) modern User Interface on C# and Angular
- Consume or develop Rest API's
- Write complex T-SQL code for data manipulation and reporting
- Conduct various T-SQL code reviews and ensure best practices are followed
- Develop reports through Reporting Services (SSRS) with data sources from relational databases.
- Implement high-quality, flexible and maintainable code, to support our growing client base, as a positive team member.
- Works collaboratively with Business Analysis, Quality Assurance Engineers, Management and other Software Engineers

Skills

Tangible experience/exposure in each of the below technical skills:

- Database development using T-SQL and SSRS
- Angular
- C#
- Rest API's will be considered as an asset
- Cloud Application Development Principles
- Very good communication and written skills in English: Greek and additional languages are a plus.
- University degree is required; a Master's degree is preferred.

At Finvent, you can find a rewarding international career where you can thrive at every level. We invest in our employees through offering competitive compensation and benefits, progressive training opportunities and wellness programs that empower employees to achieve their career goals.

In addition to challenging and meaningful work, and deep commitment to giving back to the communities where we live and work. Finvent's culture thrives on teamwork and diversity.
So, bring your unique perspective and talent to Finvent and thrive with us.
