FINVENT
SOFTWARE SOLUTIONS

Back Office Senior Consultants, Investment Management Software

Finvent is the exclusive and sole distributor of leading SS&C Advent Software products & services provider since 2001, in over 15 countries in Europe and Africa. Via our deep understanding of both the buy-side investment sector and the Advent Software suite, we also develop and distribute our own award-winning solutions. Our financial software products span the functions of: Risk Management, Portfolio Management, Client & Management Reporting and Trading & Order Management, – targeting investment management organizations such as wealth managers, private banks, asset managers, family office and funds of various types including pension and hedge funds.

Due to our growth in several regions, we currently seek numerous highly motivated, experienced and knowledgeable **Experienced Back Office Consultants, Investment Management Software**, for our Group of companies. The engineer will be based in Athens.

Responsibilities

As an Experienced Back Office Senior Consultant for our Investment Management Software, you will work closely with our clients (asset managers, fund managers, hedge funds, wealth managers and private banks) to implement and maintain our solutions in their back- and front-office environments.

Typical tasks are: workflow analysis, understanding the clients' business, configuration, data conversion, specification of custom deliverables, system testing, user training and client communication. Consultants would also evaluate and recommend enhancements to existing clients' installations and processes.

The Consultant will be servicing clients primarily in the Northern Europe region and will also be allocated to projects elsewhere in Europe and Middle East. The role is therefore ideal for candidates who are flexible in terms of travelling and find it exciting to explore different cities, cultures and business practices.

Skills

- Strong IT/technical skills (MS Windows, MS SQL, MS IIS, integration tools, reporting tools, scheduling, networks and databases), exposure to Unix or Linux environments, with several years of on-the-field experience.
- Relevant work experience (4+ years) in asset management or financial software or investment management consulting.
- Good business knowledge of Fund Accounting and of the Investment Management Industry.
- Good Understanding & strong experience of financial instruments (stocks, bonds, funds, derivatives). • Strong problem solving & trouble shooting skills.
- Strong problem solving & trouble shooting skills.
- A positive client, team and solution-oriented attitude.
- Experience with portfolio management systems is a great plus.
- University-level degree.
- Excellent communication skills in English is required. Greek is also desired. Communication skills in additional European languages are highly appreciated.
