

## SOFTWARE ENGINEERS

Finvent is the exclusive and sole distributor of leading SS&C Advent Software products & services provider since 2001, in over 15 countries in Europe and Africa. Via our deep understanding of both the buy-side investment sector and the Advent Software suite, we also develop and distribute our own award-winning solutions. Our core focus is aimed exclusively on organizations such as wealth managers, private banks, asset managers, family office and funds of various types including pension and hedge funds.

Due to our growth in several regions, we currently seek several highly motivated, experienced and knowledgeable several **Software Engineers**, for our Group of companies. The engineers will be based in Athens.

### Responsibilities

- Gaining expertise in the technologies in use and the existing applications and projects we manage
- Working in all phases of the Software Development Lifecycle
- Analyzing and identifying problems/gaps/issues/bugs
- Acquire knowledge of Investment Banking, Wealth Management and Financial domain
- Deliver as per requirements and timeline to support client requirements
- Ability to travel to Europe if/when required
- Develop reports through Reporting Services (SSRS) with data sources from relational databases.

### Qualifications

- A Minimum of 2 years' experience in MVC, SQL Server, ASP.net, C#
- 5+ years of working experiences.
- Object Oriented Programming & good knowledge of collections (ex. Dictionaries, Lists, Arrays)
- HTML5, CSS3, JQuery, JavaScript
- T-SQL, Entity Framework, LINQ, ADO.NET
- Very good English language skills are required. Additional language will be considered as an asset
- A computer science or related University Degree is required; Master is preferred
- Good analytical and problem solving abilities as well as communication skills
- Knowledge in Investment Banking, Wealth Management and Financial domain would be an added advantage.

### Benefits

- Work for a high impact global-standards company
- Competitive compensation package and benefits
- A private medical and health plan for employees and their families
- Immediate Product Certification upon hiring.
- Progressive and continuous training opportunities
- Become part of a mission-driven team which constantly learns and improves
- Be part of a socially responsible entity and with a group of like-minded people

If you've got what it takes to be a great Software Engineer and want to work on a hardworking, success-oriented and fun team, then apply today!
