

SENIOR SOFTWARE ENGINEERS

Brief Description

Finvent, since 2000, provides best-of-breed applications and professional services to all types of asset management firms, private banks & wealth management divisions, mutual funds and hedge funds, fund administrators and family offices, organizations based in South Eastern Europe, Italy, Malta, Iberia, Middle-East and Africa.

You would join a small innovative team practicing agile-methodologies within a larger company ecosystem. You would be focused on delivering user-friendly, highly-automated, and modern software solutions that solve key problems in the regions we serve. If you enjoy delivering usable software for complex problems within the financial industry, this job's for you.

Job Responsibilities

- Design, develop, and test software along with the rest of the agile team while ensuring stakeholders remain satisfied with the results.
- Ensure that the team remains laser focused on delivering value to the market and not just code.
- You're expected to be curious about new technology and driven to develop the best possible solution with the tools available.
- You choose pragmatism over perfection
- You would sit in an office in close proximity with your team mates, however you have flexibility to work independently from home office as well as per Covid regulations.
- You would be joining a results-driven culture

Qualification Requirements

- Several years .NET experience
- Good SQL Skills with a drive to optimize and automate
- Experience with JavaScript/UI frameworks
- Full-stack development skills needed
- Knowledge of agile development methodologies
- Familiar with test driven development and experience with unit test building
- Fluent in English and preferably in Greek
- Team-player as well as independent minded
- Knowledge of the financial industry and fintech is a plus
- Education in computer science or other relevant technical degree

Benefits

On top of challenging work and a competitive salary, we are offering:

- Private health & medical insurance plan
- International product certification programs
- Free coffee and beverages; kitchen facilities
- International travel and global professional experience (not during COVID)
- Educational expenses for courses, certifications and books
- Work for a high impact global-standards company
- Become part of a mission-driven team which constantly learns and improves
- Be part of a socially responsible entity and with a group of like-minded people

SENIOR SOFTWARE ENGINEERS

Your race, age, ethnicity or disability, gender identity and expression make no difference to Finvent. We want to attract, develop, promote and retain the best people based only on their abilities and professional behavior.
