

Senior Business Consultants, Investment Management Software

Finvent, since 2001, is a successful regional provider of award-winning software and services provider to the investment management industry. We are market our own, award winning KlarityRisk software platform, and we are the exclusive regional distributor and professional services partner of SS&C Advent Software and others.

Our clients span across 15+ countries include asset managers, wealth managers, banks, family offices, fund managers, fund administrators and prime brokers.

Our solutions streamline their daily processes for portfolio management, trading and order management, risk management & compliance, portfolio accounting, performance analytics, client & statutory reporting and more.

Description

We are seeking several talented and service-minded persons to join our team as Senior Business Consultant, Investment Management Software Unit.

In this role, you will help our clients across Europe, Middle East and Africa optimize business workflows, by implementing and advising on technology solutions to streamline their processes, for increased efficiencies and reduced operational risk.

As a Finvent Business Consultant, you will work closely with our clients to implement and maintain our technology solutions in their front-to-back office environments.

Typical tasks include workflow analysis, business requirement specification, system configuration, data conversion, specification of custom deliverables, system testing, user training and client communication. You will also advise on potential enhancements to clients' technology stack and processes.

Given the geographical spread of our client base, this role is ideal for candidates who are flexible in terms of travelling, and enjoy exploring different cultures and business practices across the globe.

This is a unique opportunity to blend financial industry knowledge with technology skills, in a vibrant, international work environment. You get to tap into the knowledge of leading financial institutions as well as our experienced team, to learn and develop skills that will ultimately help you progress your career, and grow a solid network within the fin-tech industry.

Responsibilities

- Deliver business and technical consulting services of high quality as part of implementation projects.
- Be the dedicated Senior Consultant and own specific deliverables within projects, or be responsible for the entire delivery of a project, depending on size and complexity of the engagement.
- Work with clients to understand their business requirements and then design and implement new or enhanced business workflows using our solutions technology stack.
- Deliver bespoke user training on our systems and business processes.

Senior Business Consultants, Investment Management Software

- Understand the technology and integration landscape of clients, and be able to evaluate and recommend enhancements.
- Configure the systems according to the agreed specifications and client requirements, following industry best practices.
- Be able to communicate clearly to clients and ensure that the correct expectations are set throughout the entire project.
- Contribute to senior strategic and service review meetings with clients as necessary.
- Ensure all services are provided at the highest standards, to ensure client satisfaction.
- Build and maintain good working relationships with clients, and handle issues related to any aspect of the services provided.
- Build and maintain good relationships with internal teams and stakeholders, and collaborate across regions to constantly improve how we service and support our clients.
- Work with our technology team and other servicing groups on projects to change or devise solutions to meet our clients' needs

Qualifications & Skills

- Good business knowledge of the investment management industry.
- Relevant work experience (consulting, asset management or financial software).
- Strong IT/technical skills (MS Windows, MS SQL, MS IIS, integration tools, reporting tools, scheduling, networks and databases).
- Understanding & strong experience of financial instruments (stocks, bonds, funds, derivatives, private equity).
- Relevant Postgraduate degree.
- Prior knowledge of Advent systems is a strong plus, but not a requirement.
- A positive client-, team- and solution oriented attitude.
- Strong problem solving & troubleshooting skills.
- Highly motivated self-starter with an appetite for knowledge and eager to learn.
- Excellent verbal and written communication skills.
- Ability to work independently as well as with others in a team environment.
- Flexibility to travel to different regions if required.
- Flexible working hours based on client engagement
- Very good communication skills in English and Greek is required. Communication skills in additional European languages skills are very desirable.

Special Conditions:

- This is a full time Athens based position and requires international travel from time to time.
- Advent Software consulting certification to be acquired is a requirement.

Senior Business Consultants, Investment Management Software

Benefits

On top of challenging work and a competitive salary, we are offering:

- Competitive salary and bonus payment plans
- Private health & medical insurance plan
- International product certification and continuous training programs
- International travel and global professional experience (COVID-permitted)
- Work for a high impact global-standards company
- Become part of a mission-driven team which constantly learns and improves
- Be part of a socially responsible entity and with a group of like-minded people

Your race, age, ethnicity or disability, gender identity and expression make no difference to Finvent. We want to attract, develop, promote and retain the best people based only on their abilities and professional behavior.
