

Business Consultant, Investment Management Software

Finvent, since 2001, is a successful regional provider of award-winning software and services provider to the investment management industry. Our clients span across 15+ countries include asset managers, wealth managers, banks, family offices, fund managers, fund administrators and prime brokers.

Description

We are searching for a qualified, talented, and service-minded person to join our team as Business Consulting team, Investment Management Software Unit. In this role, you will help our clients across Europe, Middle East and Africa optimize business workflows, by implementing and advising on technology solutions to streamline their processes, for increased efficiencies and reduced operational risk.

As a Finvent Business Consultant, you will work closely with our clients to implement and maintain our technology solutions in their front-to-back office environments.

Typical tasks include workflow analysis, business requirement specification, system configuration, data-conversion, specification of custom deliverables, system testing, user training and client communication. You will also advise on potential enhancements to clients' technology stack and processes.

Responsibilities

- Deliver business and technical consulting services of high quality as part of implementation projects.
- Work directly with clients to understand their business requirements and then design and implement new or enhanced business workflows using our solutions technology stack and related teams.
- Be the dedicated Consultant and owner of specific deliverables within projects or be responsible for the entire delivery of a project, including training services.
- Understand the technology and integration landscape of clients and be able to evaluate and recommend enhancements.
- Configure the systems according to the agreed specifications and client requirements, following industry best practices and our implementation methodology.
- Be able to communicate clearly to clients and ensure that the correct expectations are set throughout the entire project.
- Ensure all services are provided at the highest standards, to ensure client satisfaction.
- Build and maintain good working relationships with clients and various internal teams, and handle issues related to any aspect of the client services provided.
- Work with our technology team and other servicing groups on projects to change or devise new or custom solutions to meet our clients' needs.
- Build and maintain good relationships with Finvent internal teams and stakeholders and collaborate across Finvent units to constantly improve how we service and support our clients.
- Perform business analysis, new requirements, workflow, and operational reviews.
- Assist with researching complex account issues

Business Consultant, Investment Management Software

Qualifications & Skills

- Relevant work experience (wealth consulting, asset management or financial software).
- Relevant Postgraduate degree
- Strong IT/technical skills (MS Windows, MS SQL, MS IIS, integration tools, reporting tools, scheduling, networks, and databases).
- Good business knowledge of the investment management industry and of financial instruments (stocks, bonds, funds, derivatives, private equity).
- Acquisition of Advent Software consulting certification is a requirement for this position; prior knowledge of Advent systems is a strong plus, but not a requirement.
- Fluency in the English and Greek languages; additional European languages are a plus.
- Holder of a European passport or EU Working Visa is required
- Team-worker in a multi-lingual, international, team-working environment.
- Strong business skills and ability to quickly understand client business processes. Ability to apply troubleshooting and analytical skills when resolving problems.
- Highly motivated self-starter with an appetite for knowledge and eager to learn.
- Flexibility to travel to different regions, when required, although many are remote today.
- Experience on implementation issue resolution
- Proven ability to meet deliverables
- Excellent communication skills
- Ability to multi-task effectively

Benefits

On top of working in a challenging ever-changing sector, award winning products and an excellent, friendly team, we are offering:

- Excellent career opportunities in a stable and supportive corporate environment
- Competitive salary and bonus payment plans
- Private health & medical insurance plan
- International product certification and continuous training programs
- International travel and global professional experience
- Be part of a socially responsible entity and with a group of like-minded people

Your race, age, ethnicity or disability, gender identity and expression make no difference to Finvent. We want to attract, develop, promote, and retain the best people based only on their abilities and professional behavior.
